EDUCATION

Bachelor of Technology
GCOE, Kolhapur, Maharashtra
2023 – 2027

Senior Secondary (XII)
Indira Gandhi Junior College

CERTIFICATIONS

- Full Stack Web Development
- The Complete Agentic AI Engineering Course
- Complete Python Bootcamp from Udemy

PROFILE

Enthusiastic Software Engineer & Emerging Agentic AI Engineer passionate about building user-friendly web applications and autonomous AI agents. Skilled in HTML, CSS, JavaScript, and experienced with Agentic AI frameworks (CrewAI, LangGraph, AutoGen). Proficient in designing, deploying, and orchestrating LLM-powered autonomous systems. Eager to apply creative problem-solving and cutting-edge AI skills to deliver impactful, scalable solutions.

TECHNICAL SKILLS

Front-End Development

Built responsive, interactive UIs for projects like my personal portfolio, Netflix clone, and Nike clone using **HTML, CSS, and JavaScript**.

AI & Backend

Leveraged **Python** and frameworks like **CrewAI** to develop the logic for Agentic AI projects, including multi-agent systems for research and trading.

Design & Prototyping

Used **Figma** for wireframing and creating high-fidelity prototypes for web applications, including my portfolio site. Skilled in **Canva** for graphic design assets.

Core Languages & Databases

Foundational knowledge in **Java, C, and SQL**, enabling robust and scalable application development.

TRAININGS

Agentic AI Engineering

The Complete Agentic AI Engineering Course

- Mastered design patterns for Agentic AI and connected LLMs to create autonomous workflows.
- Gained expertise in CrewAI, LangGraph, and AutoGen to build and deploy intelligent agents.

Front-End Web Development & UI/UX

- Developed responsive web apps using HTML, CSS, & JavaScript.
- Skilled in Figma for wireframing, prototyping, and creating clean, intuitive UI layouts.

PROJECTS

Web Development Projects

- Personal Portfolio Website:** Designed in Figma and developed a fully responsive personal resume website.
- CineMood:** A sophisticated web application to streamline movie discovery.
- Netflix & Nike Clones:** Built interactive replicas with modern UI and responsive design.

Agentic AI Projects

- Deep Research Agent Team:** Multi-agent system for autonomous topic research.
- 4-Agent Engineering Team:** AI-driven software development and testing in Docker using CrewAI.
